OTHER PROJECTS

CRUSHER

FIGHTER JET VR

EXPERIENCE

HEADOUT | INTERN

Dec 2019 - Present | Bangalore

- Integrated React-Native in Android, iOS and web apps.
- Decreased android build times by cleaning up unwanted libraries and turning on incremental kapt.
- Integrated CI/CD for android and iOS with github actions.
- Implemented completed seatmap booking flow.

PREPSTART | PERSONAL PROJECT

Oct 2018 - Present

- Built a **React Native** app for both android and iOS.
- Built a mobile web app using **react-native-web**.
- Built backend with Node.js **typeorm** and **routing-controllers**.
- Built a CI/CD for easier deployments with the help of **github actions** and **shipitJS**.

GOOGLE SUMMER OF CODE 2018 MENTOR

April 2018 – August 2018

GOOGLE CODE-IN 2017 MENTOR

Nov 2017 – Jan 2018

GOOGLE CODE-IN 2016 GRAND PRIZE WINNER

Nov 2016 – Jan 2017

- Free trip to **Google Headquarters** in Mountain View USA, for being chosen as Grand Prize Winner from Drupal.
- Became co-maintainer of last year GCI Project, Social API which has **200k+ downloads** and **9,000+ installations**.
- Created Social Auth Twitter module to enable user authentication with twitter account. Also created 'Social Media Share' which allows the users to share images when they hover on the picture.

PROJECTS

CRUSHER

Creating an E2E codeless visual and flow testing tool. Crusher simplifies the test creation, monitoring and testing by integrating with your existing workflow.

SOCIAL API DRUPAL

The Social API allows integration of modules which can add all the possible functionalities that can be provided by services that require authentication. This includes user authentication, auto-posting, etc.

FIGHTER JET VR

Developed VR simulation for Google cardboard. Received more than 32,000 user downloads.
